

WHAT HYDRONICS TAUGHT HOLOHAN

Wednesday, September 30th | 8:00am through 4:00pm

Ferguson Hydronics invites you to join us for a presentation on *What Hydronics Taught Holohan* presented by Dan Holohan.

Dan has written 17 books and hundreds of magazine articles. He knows that the best way to share ideas is through stories. It makes the learning both fun and painless. So join us for a day filled with Dan's stories as he recounts the places he's been, the people he's met, the crazy things that have happened on jobs, how Hydronics has changed (and not changed) along the way, and what Hydronics has taught him.

This is Dan's last year of teaching. He has a lot to get out of his system before he hangs up his Hydronics hat, so don't miss this one.

Cost: \$35 per person - includes breakfast, lunch & Milwaukee Tool Gift Bag. A vendor trade show will be ongoing throughout the day

8:00-9:00am - Breakfast / 9:00-12:00pm - Dan
12:00-1:00pm - Lunch / 1:00-3:00pm - Dan again
3:00-4:00pm - Cocktails

Medieval Times | Arundel Mills | 7000 Arundel Mills Circle | Hanover, MD 21076

To reserve your seat please RSVP by Wednesday, September 23rd to Patrick Fulford at Patrick.Fulford@ferguson.com or call 443-543-1310
