

WHAT HYDRONICS TAUGHT HOLOHAN

Thursday, September 3rd | 9:00 A.M. to 5:30 P.M

Ferguson Hydronics invites you to join us for a presentation on *What Hydronics Taught Holohan* presented by Dan Holohan.

Dan has written 17 books and hundreds of magazine articles. He knows that the best way to share ideas is through stories. It makes the learning both fun and painless. So join us for a day filled with Dan's stories as he recounts the places he's been, the people he's met, the crazy things that have happened on jobs, how Hydronics has changed (and not changed) along the way, and what Hydronics has taught him.

This is Dan's last year of teaching. He has a lot to get out of his system before he hangs up his Hydronics hat, so don't miss this one.

Special Guest EMCEE - John Barba
A mini vendor trade show will be set up on site.

Cost: \$75 per person - Limited number of tickets available.

8:00 A.M. - Check-in
